ABOUT THE FIRM

The name *planygy* is inspired by the scientific, philosophical and artistic (and spelling test) term “syzygy,” a term which in its celestial sense describes the times when stars, planets or moons are lined up, often magnifying their light or their tidal and gravitational forces. In the same way, plans and programs are far more influential and effective when they “line up” with one another. Simply stated, our firm applies a combination of analysis, technology, creativity and practical experience to land use planning, plan implementation and policy research issues to create “plan-syzygy.”

Planygy, LLC is a sole member Limited Liability Company established in September 2002 by its Principal, Robert A. Kull, P.P., A.I.C.P. and registered in the State of New Jersey. Mr. Kull is a New Jersey Licensed Professional Planner (No. 03043) and member of the American Institute of Certified Planners (No. 020333) with over 27 years of experience in applying scientific and social research, information technologies and a wide range of planning and communications skills to preparing and aligning elements of plans and programs. This experience gives Planygy a rare, if not unique, knowledge base and skill set that crosses many disciplines, as well as access to a talented and diverse range of professional contacts that Planygy can orchestrate into projects as team members or project associates.

Planygy’s competencies can be applied to a wide range of projects:

- Brownfields Redevelopment
- Buildout Analysis
- Capital Facilities and Infrastructure Plans and Programs
- Community Development
- Comprehensive Plans
- Development Review
- Digital Visualization
- Environmental Planning
